Pawan Kumar

Senior Software Developer @Harman || Founder of
Converteasly.com

Bengaluru, Karnataka, India

Summary

Passionate full stack developer with expertise in Java, AWS cloud, and Next.js framework, with 3+ years of hands-on experience. # I specialize in designing robust backend databases and architecting Spring Boot-based Microservices while leveraging AWS cloud services for scalable and efficient solutions.

My role extends to frontend development using Next.js framework, creating seamless user experiences and interactive interfaces. Additionally, I excel in identifying and resolving software bugs, enhancing system performance across the stack.

My background in Computer Science from Sagar Institute of Research & Technology, Bhopal has provided me with a strong foundation in algorithms and software engineering principles.

Beyond my professional endeavors, I am also the proud founder of converteasly.com, a website aimed at solving your file-related problems like converting image to PDF, PDF to images, text to PDF, merging PDF, split PDF, protecting PDFs, all office tools, image tools and many more.

ConvertEasly is your one-stop destination for all your file conversion needs. Our user-friendly and versatile online platform empowers you to effortlessly convert various file formats to meet your specific requirements. Whether you need to transform a document into a PDF, switch between image formats, resize pictures, or compress large files, ConvertEasly has you covered.

I'm constantly seeking new challenges and opportunities to expand my skill set and make a positive impact in the tech industry. Let's connect and explore potential collaborations!

Experience

HARMAN India

1 year 9 months

Senior Software Developer | Mercedes Benz R & D

February 2025 - Present (11 months)

Bengaluru, Karnataka, India

Product Engineer

April 2024 - February 2025 (11 months)

Bangalore Urban, Karnataka, India

Golang Backend developer | Mercedes Benz R & D

April 2024 - February 2025 (11 months)

Bangalore Urban, Karnataka, India

Suggesting routes for EV and Combustion vehicles to mercedes customers.

Converteasly

Founder

February 2022 - Present (3 years 11 months)

Bengaluru, Karnataka, India

converteasly provides free file conversion tools which solve your file related problems. It provides all conversion tools at one place with No Restrictions and No signup Required.

Wipro

2 years 2 months

Java Backend Developer | Mercedes Benz Research and Development India

August 2022 - March 2024 (1 year 8 months)

Bangalore Urban, Karnataka, India

Developed new features, performed maintenance, and resolved bugs for the Parking Application of Mercedes-Benz vehicles, in accordance with Business Requirements Documents (BRD).

Responsibilities:

- Spearheaded Proof of Concept (POC) initiatives for new features, ensuring alignment with BRD specifications and implementing code accordingly.
- Conducted thorough analysis of logs to identify and rectify bugs leading to exceptions, subsequently creating comprehensive Zira Stories for tracking purposes.

- Managed critical production tickets (P1/P2/P3) in Mattermost, providing Root Cause Analysis (RCA) and resolving issues promptly to minimize downtime.
- Raised and reviewed Pull Requests (PRs), addressing merge conflicts as necessary, and efficiently reassigned tickets related to issues originating from other services.
- Debugged non-production issues locally, swiftly implementing bug fixes to maintain application stability.
- Orchestrated the migration of services to AWS, leveraging various components including EC2, NLB, ALB, ACM, TG, Glue Pipeline, Kinesis, IAM, ECS, ECR, etc., and provisioning infrastructure using Terraform.
- Facilitated seamless communication between Quality Assurance (QA) and Client teams, addressing issues promptly and ensuring client satisfaction.
- Maintained comprehensive documentation on Confluence, meticulously tracking issue progress on Mattermost.
- Configured and maintained SSL certificates for domains, managing certificates in both Azure Keyvault and AWS Certificate Manager.
- Managed production incidents, taking ownership of JIRA tickets, and collaborated with the application lead and peers developers to drive resolutions.
- Collaborated closely with cross-functional teams to analyze requirements and design technical solutions, ensuring alignment with project objectives.
- Engaged in all phases of the software development life cycle, including planning, requirement gathering, development, testing, and quality assurance.

Project Engineer

May 2022 - July 2022 (3 months)

Bengaluru, Karnataka, India

Intern | java

February 2022 - May 2022 (4 months)

Chegg Inc.

Subject Matter Expert

February 2021 - April 2021 (3 months)
